Side Projects

LDS Billboards

www.cgutzman.com/#/projects

Lead team of developers in creating an online app for the LDS church to track their billboard information. Used Angular Google Maps API, Angular, Node, Express, MongoDB, GitHub.

Smite Pantheon

www.smitepantheon.com

I am the owner and developer of Smite Pantheon, a fansite under construction for the popular online game Smite. It makes use of multiple API's to gather data, OAuth2 authentication, and is built using Angular, Node, Express, and MongoDB.

Rocket Math

www.cgutzman.com/#/projects

Online flashcard game I am creating for kids. It allows them to practice addition, subtraction, multiplication, and division. Built using Angular, Node, Express.

Experience **Fidelity Investments**

Electronic Channel Support Representative

Jan 2011 – Dec 2014

Operations Analyst

Jan 2010 – Dec 2010

Fixed Income Specialist

Nov 2008 – Dec 2009

Stock Plan Services Associate

Oct 2007 – Oct 2008

Financial Representative

Mar 2007 – Sep 2007

Provided exceptional technical support and trading assistance, consistently going above and beyond to assist customers, thinking outside the box to find solutions to problems.

Handled logistics and scheduling for multiple departments. Developed and implemented a training program for our High Net Worth Service teams.

Provided high net worth customers with fixed income solutions. Educated customers on risks and available tools.

Was a top performer nationally in back-to-back 90-day campaigns, generating the most new customers and bringing in the most assets in the department.

Provided five-star customer service, assisting customers with trading mutual funds, equities, and options.
